PROFESSIONAL SUMMARY

Network Engineer with a strong academic foundation in Telecommunications and Network Engineering. Proficient in administration and operational management of network systems, paired with practical capabilities in software development and web applications. Dedicated Linux user and advocate for Free and Open Source Software (FOSS), committed to technical precision, innovation, and operational efficiency.

WORK EXPERIENCE

IT Manager

01/2024 – 09/2024

Ministry of National Defence — Ain Amenas, Illizi

- Designed, installed, configured, and maintained a Local Area Network (LAN) to facilitate secure internal communication across unit offices.
- Developed and deployed a localized web application for Human Resources management.
- Managed software installations, system maintenance, and technical troubleshooting across unit workstations.

Network Engineering Intern

05/2023 – 06/2023

Algérie Télécom — Mohammadia, Mascara

- Gained hands-on experience operating network hardware, including enterprise routers, switches, and telecommunication infrastructure equipment.
- Monitored operational processes and network architecture to assist in maintaining infrastructure integrity.
- Developed core technical insights into network delivery and telecom operational services.

FREELANCE PROJECTS

Automation Web Application

07/2025

SNTF (AMF Mohammadia) — Mascara

- Engineered a custom web application to automate the scoring and rating evaluation system for the financial accounting team.
- Modernized legacy workflows by seamlessly integrating a former MS-DOS data output format into a clean, modern user interface.

EDUCATION

Master of Science in Networks and Telecommunications

06/2023

Mustapha Stambouli University — Mascara, Algeria

Bachelor of Science in Telecommunications

07/2021

Mustapha Stambouli University — Mascara, Algeria

SKILLS & CERTIFICATIONS

Technical Skills:

Linux, Python, Flask, Node.js, SQL, Git, Telegram API, GNS3, Cisco Packet Tracer, Adobe Photoshop, MS Office

Engineering Principles:

Algorithmic thinking, network diagnostic & troubleshooting, rapid learning, system design

Certifications:

Cisco Certified Network Associate (CCNA) training

Languages: Arabic (Native), French (Fluent), English (Proficient)

INTERESTS

Literature: Crime and Punishment, White Nights, My Sweet Orange Tree

Anime & Manga: Vinland Saga, Attack on Titan, Beastars
